Our value

Phronteseas offers a private, highly competent, and reliable Expert Witness solution to our clients. With over 200 years of operational, project, asset management, and advisory experience in the energy sector, Phronteseas provides a top-tier, knowledge-based service. Our teams possess recent and comprehensive hands-on experience in the areas of engagement.

Our core process

Phronteseas expert witness services
are a part of our advisory offerings.

Comprehensive Service Portfolio

Phronteseas AS offers a full spectrum of services tailored to the energy industry, including asset and operations management, technical lifecycle planning, engineering support, and back-office services for maintenance and inventory management. This diversified portfolio positions the company as a one-stop shop for energy sector clients, especially in oil, gas, and drilling rigs.
